**DETAILED ACTION**

***Election/Restrictions***

1. This application contains claim 1 drawn to an invention nonelected with traverse in the response filed 12/22/2003. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

***Claim Rejections - 35 USC § 112***

2. Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 is dependent on claim 6 and refers to same as a method claim; claim 6 is an apparatus claim. It is not clear whether or not claim 7 is intended to be an apparatus or method claim.

***Allowable Subject Matter***

3. Claims 2-6 are allowed.

4. Claim 7 would be allowable if rewritten to refer to claim 6 as an apparatus claim (e.g. "A coffee maker as claimed in claim 6") and, therefore, overcoming the rejection under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not disclose nor teach the particular apparatus as claimed wherein same comprises a single water reservoir, a brew basket, an inline

heater, and first and second lines for delivering water and steam to the brew basket, as specifically claimed, wherein the steam line enters the brew basket below the level of coffee grinds in the basket.

***Response to Remarks***

6. Applicant's remarks regarding non-elected claim 1, filed 10/21/04, have been fully considered but they are not persuasive. Although it is noted that Applicant has amended the non-elected claim by adding language that parallels that of the allowed apparatus claims, such does not make the method claim necessarily allowable. Moreover, it should be noted further that the method invention has not been searched. In searching the invention for the method invention, one would be required to employ a different search strategy as well as search in some different areas from those required for the apparatus invention. It should be noted that the restriction requirement has already been made Final as set forth in the paper mailed 7/16/04 (i.e. Non-Final Rejection).

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
